

Fikri Wibowo

Tanjung Priok, Jakarta Utara | 081317986234 | wibfikri@gmail.com | [Linkedin](#) | [Portofolio](#)

Web Developer specializing in Next.js and Laravel with hands-on experience managing WordPress, Wix, and Shopify CMS. Adept at building responsive interfaces, integrating APIs, and applying basic SEO improvements. Comfortable collaborating with designers using Figma and working with Git-based workflows.

Work Experience

PT Megakapuas Dinamik

Website Developer

(Jan 2025 – Present)

- Developed a **Next.js** dashboard to **store and track lead and sales statuses, centralizing data** and improving visibility for internal stakeholders.
- Collaborated with the marketing team to design, build, and deploy **seven WordPress websites** for seven brands (three distinct product lines).
- Managed website upkeep, updates, and **SEO keyword** research (Ubersuggest)
- Created and optimized **SEM-focused WordPress landing pages** to support ad campaigns with conversion-focused layouts and performance improvements.
- Managed **CMS workflows and monitored site performance** to ensure content accuracy, uptime, and alignment with marketing objectives

Nava Appartment

Wix Developer

(Nov 2024 – Jan 2025)

Part Time

- Developed an apartment **booking landing page using Wix Studio** to enhance user engagement.
- Created a **Progressive Web App (PWA) for booking apartment facilities**, integrating Xendit for seamless transactions.
- Leveraged **custom code Velo** to optimize functionality and user experience.

PT Taharica

Front End Developer Intern

(Jul 2024 – Nov 2024)

- Developed **custom WordPress themes** utilizing HTML, CSS, and JavaScript to enhance user experience.
- Conducted website maintenance and **implemented SEO marketing strategies** to improve site visibility.
- Contributed to a dynamic startup environment at Taharica, fostering innovation and growth in web development.

Project Experience

Alterra Academy

Real Estate Rental and Sales Website:

- Developed a **responsive front-end for a real estate website using ReactJS**, allowing users to browse and filter rental and sale properties.
- Optimized for **API integration** using Axios.

Warehouse Rental Admin Dashboard:

- **Create landing pages and admin dashboards** for warehouse management system websites
- **Implemented data visualization and interactive** features to streamline rental management processes.

Universitas Bina Sarana Informatika

Electricity Payment Website:

- Created a **website for electricity bill payments** using Laravel as part of the BNSP exam at Universitas BSI.
- Implemented functionality for **users to pay their electricity bills using their KWH number**, with an admin interface to check payment data.
